Steam to China!

By an advertisement in to-day's paper it will be seen that Trans-Pacific Steam Navigation is at last a fact in history, a point in time, the entering wedge of untold developments. We speak not of a casual steamer, making the transit from one Continent to another once in a great while, but of a regular contiquous line of ocean steamers running between San Francisco and China, touching at Kanagawa and Honolulu. Success to the enterprise, all credit to its projectors. From a San Francisco exchange we copy the following most interesting piece of news :

A TRANS-PACIFIC LINE OF STEAMSHIPS .- The steamship 'Scotland,' now expected from Hongkong, via Kanagawa, Japan, is one of three large steamers built by William S. Lindsay, of London, and named by him the ' England,' 'Ireland' and 'Scotland.' They are full-rigged, iron screw steamships, and register \$74 tons each, English measurement. The 'England' was sold some months ago to the Japanese Government for some \$125,000. The 'Scotland' was one of a line of steamers that formerly ran between Sydney and Singapore, and to other places in the East Indies. Parties, whose names do not ap- rates have not as yet advanced. pear, have purchased two other steamers, very simlar to the 'Scotland,' that are to run in connection with her across the Pacific. They are the 'Tynemouth ' and the ' Robert Lowe.' This last vessel is now on her way here from England, and will be due in about one month, and the other, we understand, is now in China, and will leave for this port some time after the sailing of the 'Scotland.' The line will stop 36 hours at Kanagawa on t cir way here, and returning, will stop at Honolulu, Sandwich Islands, the same length of time. The bunkers of each of these steamers are large enough to carry sufficient coal to make the entire Trans-Pacific passage without stopping any where; and being, as stated above, ship-rigged, they will be enabled to take advantage of fair winds; and with both steam and wind, will probably make the passage between Hongkong and San Francisco in about four weeks. Each steamer will have room for about 40 first class passengers, and quite a large number of steerage passengers. The agents in Hongkong are Russell & Co. The 'Scotland' is officered by Americans.

Messrs. H. Hackfeld & Co. are the agents for the Trans-Pacific line in Honolulu.

JUVENILE RASCALITY .- On Sabbath evening last, during service at the Episcopal Church, two native lads took a horse and chaise, belonging to Mr. M'Cully, which were tied in front of the building, and drove off, coolly making the circuit of the town, at a John Gilpin speed, and after two hours racing. let the horse go again. Being a gentle animal, he quiety returned to the post where he has been accustomed to be tied during the day time. The chaise, however, was stripped of everything movable. On Manday evening, the same party, who have since been apprehended, took Mr. Dimond's buggy from in front of the Fort street Church, and cut up similar pranks with it. In the first of these cases, immediate notice was not given at the Police Station. thereby allowing the young scamps to have it all their own way. Mr. Dimond, as soon as he missed his carriage, went to the Station House, and soon after, Mr. Parke caught the urchins, after a long chase. One was about seven years old, and the other ten. Mr. M'Cully's whip was found in Mr. Dimond's carriage, having been left there by the boys. It's no doubt very well for juveniles to have a "Merry Christmas," and " Happy New Year," as well as the rest of mankind, provided they sport on their own capital, but this keeping up the holidays on stolen apital is hardly the thing. In the absence of any house of correction for juvenile delinquents, perhaps a free use of the birch rod will serve best to teach them the proprieties of life .- P. C. Advertiser.

IMPORTANT ARCTIC DISCOVERIES -The following is a copy of a telegraphic dispatch from Mr. C. F. Hall, the arctic voyager, who reached St. John's, N. F., upon his return on Friday last. It is addressed to Mr. H. Grinnell of New York city :

St. John's, N. F. Aug. 22, 1862. I am bound for the States to renew my voyage. I

that He hath impowered me to do so much I have determined the fate of probably two boats' crews of Sir John Franklin; have solved the mystery of 300 years relative to Sir Martin Frobisher's expedition under Queen Elizabeth, and have learned the fate of five of the men captured from Frobisher by

posed, on account of the vessel : but I thank God

the Esquimaux I have found and identified the exact place of their landing and prior account of Warwick's Sound : from Dec 27-Haw sch Molkeiki, for Lahaina and Kahului. thence Frobisher attempted to plant the colony of one hundred men. I have recovered Avassa, Varedi and a large number of relics of said expedition, and have explored over one thousand miles of the sea coast, including the so-called Frobisher's Straits,

which I found to be a deep bay terminating in latitude 63 48 N. longitude 70 W. I have also discovered a great glacier and a mountain of fossils between Hudson Straits and Bay of Frobisher. The George Henry was about to depart for the States, Aug. 9, 1861, but thick-ribbed ice kept her entombed until Oct. 18. The ship's company subsisted mostly through the winter by the generous hospitality of the Esquimaux.

In domestic produce we have no sales to report. The weather has been very stormy and little produce coming forward.

Shanghae, Oct. 6, 1862.

There has been a much larger business doing in Teas with us, with heavy receipts of the new crop. Blacks are easier, whilst Greens are still held firmly. Silk has been in limited demand only, present prices being far too high to induce business. Piece goods have fluctuated somewhat in price, but show no material change in proportion to last mail quotations. Exchange has been somewhat easier, with only a moderate business doing.

Tonnage is in better request, but at still unremunerative rates Shanghae, Oct. 6, 1862. Tonnage is in better request, but at still unremunerative rates for the Coast and Japan trade.

Flour had declined from \$23 P bbl down to \$8@\$10 for common brands, owing to an unexpected arrival from Hongkong. A part of the Josephine's cargo is said to have been sold for \$10, balance on hand. The cargo of the A A Eldridge is said to have been sold at \$23 \$\to\$ bbl. Good Gallego Flour is held above cur-

rent market price.

Lumber is in better demand.

Bk Arab of Fairhaven, 276 tons, has been purchased by Messrs. I. H. Bartlett & Sons, for Williams & Haven, of New London, to replace the Alert, destroyed by the privateer Ala-bama. She is to be continued in the whaling business, and will be dispatched to Hurd's Island.

Corros Duck.—At the present price of cotton duck, a suit of sails for a ship of 1,000 tons, would cost not less than \$5,500, not including boitrope, manufacture, etc., reckoning 7,500 yds. for the suit, at an average price of 75 cents per yard. For a ship of 1,000 tons, No. 3 duck is used, which weighs I pound to the yard, a fact that will give some adequate idea of the amount of cotton used, as well as the weight of a suit of sails.
